VOLUME FIFTY-ONE

PLACERVILLE, EL DORADO COUNTY, CALIFORNIA FRIDAY, JANUARY 31, 1941

NUMBER 22

Placerville Republican

EL DORADO COUNTY'S ONLY DAILY NEWSPAPER

WEATHER

Cloudy north tonight and Saturday; little change in temperature.

Your Income Tax

Federal income tax payments become delinquent on March 15th. For the convenience of our readers we will present under this heading a series of authenticated articles which may help answer some of the questions likely to arise. Meanwhile, W. D. Malloy, deputy collector of internal revenue for this district, opens offices February 1 at Room 5, in the basement of the postoffice. After February 13, his schedule in this county includes Placerville February 13, 14 and 15; at Camino postoffice February 22; and at Placerville again March 1st, 3rd, 4th, 10th and 11th.

Personal Exemptions and Credit For Dependents

Domestic relations enter into the making of an income tax return. This shows itself in the matter of personal exemptions. Too many taxpayers do not understand who is legally the head of a family, or what is a dependent. As a consequence, they overpay the government by not claiming their proper exemptions and credits. Of course, the audit of their returns discloses most of these errors, but not all of them, due to negligence or lack of understanding of the income tax law and regulations.

Care is taken in drafting the instructions for filling out the forms to make them simple and easily understood. The taxpayer should study these instructions before making out his or her return.

The head of a family, as defined by the income tax regulations, is one who, because of a legal or moral obligation, supports and maintains in one household a dependent individual, or individuals, closely connected with him by blood, marriage, or adoption. As such, he or she is entitled to a personal exemption of \$2,000.

A credit of \$400 is allowed for each dependent. A dependent is one under 18 years of age, or one who is physically or mentally defective and incapable of self-support. He need not live with nor be related to the taxpayer.

If husband and wife contribute to the support of a dependent, the \$400 credit may be taken by the one contributing the chief support, and it may not be divided between them. Likewise, if two members of a family contribute to the support of a dependent, the one who contributes more than one half of the support may claim the credit.

Both the personal exemption and the credit for dependents must be prorated when the status of the taxpayer changed during the year.

Exemptions Allowed Couples Married During Taxable Year

The credit for dependents as well as the personal exemption is required to be prorated where a change of status occurs during the taxable year, and these credits are allowable not only for the purpose of computing the normal tax but also the surtax. A fractional part of a month is to be disregarded unless it amounts to more than half a month, in which case it is considered a month.

For example, a single man and a single woman who were married on July 20, 1940, and lived together during the remainder of the year would be entitled to a personal exemption of \$1,766.67 in a joint return for the calendar year 1940, which amount is seven-twelfths of \$800 for the husband while single, plus seven-twelfths of \$800 for the wife while single, plus five-twelfths of \$2,000 for the period during which they were married. If separate returns are filed, each is entitled to a personal exemption of \$888.88 which is seven-twelfths of \$2,000. If during the year 1940 the husband or the wife had the status of the head of a family prior to their marriage, he or she would be entitled to his or her pro rata share of the personal exemption of \$2,000 allowed the head of a family for the period prior to their marriage instead of merely that allowed a single person.

However, for the period of their marriage any exemption to which either might be entitled as the head of a family would be merged in the joint personal exemption for that period. The joint personal exemption allowable in the case of a couple who were married and living to-

BANK DEPOSITS SHOW GAIN FOR YEAR

Local Loans Outstanding \$1,317,148, Increase Of About \$100,000 Over '39

El Dorado County is well up front in the march of progress, according to E. Ogden Hook, manager of the Placerville branch of the Bank of America.

At the end of the year, funds on deposit at the local branch totaled \$2,903,244, a net gain of \$157,843 over the end of 1939.

"But it is our volume of loans that tells the real story," said Mr. Hook. "Bank loans mean money at work in business, industry and agriculture."

"At the year end we had \$1,317,148 outstanding in local loans, a gain of approximately \$100,000 over the same date the year before."

"During 1940 this branch made 3,035 new loans, totaling \$1,749,603. But in order to get a better picture let's break down this total and see what this money was used for:

"For local real estate, home building, modernization, etc., 133 loans, totaling \$267,753."

"For the purchase of automobiles, 663 loans, totaling \$338,255."

"For the purchase of labor saving equipment for the home, such as washing machines, refrigerators, etc., 193 loans, totaling \$25,176."

"For personal, individual needs, needs, 805 loans, totaling \$140,451."

"The remaining \$977,968 in new loans during 1940 went into local business, industry and agriculture, including nine loans to youthful 4-H Club members to assist them with their projects."

Manager Hook pointed to the fact that the average for each loan made by his branch was \$576.47 was evidence that Bank of America was providing for the small business man and the individual here, as throughout the state.

"The 1941 outlook for many of our industries, particularly lumber, mining and agriculture, appears promising," Mr. Hook concluded, "especially the lumber industry which has just experienced the biggest year in the history of El Dorado County."

Labor Claims Show Gains

Number Of Complaints Declines, Recovery Total Is Larger

SACRAMENTO. (UP)—Approximately \$602,000 in unpaid wages was recovered for more than 15,500 California workers during 1940, as compared with \$531,000 in 1939, for 14,500 workers, H. C. Carrasco, chief of the division of labor statistics and law enforcement, reported today.

A total of 29,362 workers during 1940 sought the aid of the labor commissioner in the collection of unpaid wages and relief from violations of other labor laws. This number, Carrasco said, is 8.6 per cent larger than that for 1939. The increase, he said, is due mainly to a rise in the number of complaints of violations of laws other than those concerning the payment of wages.

Wage complaints declined 1 per cent from 23,862 in 1939 to 23,636 in 1940. Non-wage complaints increased by more than 80 per cent from 3,178 in 1939 to 5,726 in 1940.

Number Of Working Women Increases In Year

SACRAMENTO. (UP)—An increasing number of women are seeking employment and finding it as a result of the defense boom in California the department of employment reported today.

During 1940, 107,406 women were found jobs by the department, it reported to Gov. Culbert Olson. This represented a 7 per cent increase over 1939. At the same time women constituted 32 per cent of all persons seeking work compared to 27 per cent in 1939.

Dewey King was in town from Twin Bridges resort Friday, getting ready for a big weekend of patronage from winter sports fans in the Lover's Leap Ski area.

Ernest Scheiber was in town from El Dorado Friday morning.

Flies 620 M.P.H.

Testing an Airacobra interceptor plane at Buffalo, N. Y., for the U. S. Army Air Corps, Andrew C. McDonough flew at a speed of 620 miles per hour while diving 21,000 feet. McDonough, an airlines pilot, is a Naval Reserve flier. The previous speed record, set two years ago, was 575 m.p.h.

COUGARS SET FOR IONE

New Maneuvers by Girls' Drill Team In Display Midway In Evening

The Cougars meet the Ione high school in three regularly scheduled Mother Lode High school league basketball games tonight at the high school gymnasium.

First game of the night is called for seven o'clock.

Public interest in the exhibition drill by the girls' drill team, sponsored by the Girls' League, was so great following the initial drill two weeks ago, that the team will make another appearance tonight.

New formations have been worked out and new card stunts developed for tonight's showing.

The exhibition is scheduled to be given midway during the evening hoop program. The C teams will meet first and then the B teams will take the floor, and the girls will display their marching stunts during the half-time interval in the B game.

As usual, the A team game will wind up the night.

County Resident Nabbed For Santa Clara County

John D. Riggs who, during a period of several months has been arrested and released a number of times, in connection with his family troubles, was arrested again on Thursday.

As usual, it was at the request of Santa Clara County authorities, who took him to San Jose Thursday evening.

El Dorado County officers said they understood that the kernel of the situation is Riggs' alleged "expected" a six-month jail sentence this time for his failure to do so.

The defendant's reasons for continuing himself liable to the charges were not learned.

CCC Safety Record For Year "Excellent"

SAN FRANCISCO.—An "excellent record" for accident prevention in forestry Civilian Conservation Corps camps of California has been reported for the year 1940 by Regional Forester S. B. Shaw of the U. S. Forest Service, Department of Agriculture.

"The record of less than one accident per 100,000 man-days worked by CCC enrollees will compare favorably with, if not excel, average civilian industrial rates," said the Regional forester.

NORTH SIDE WAGE DEFENDANT PAYS \$100 FINE AND LABOR CLAIMS

Homer E. Fern, north side mine operator, was found guilty Thursday before Justice of the Peace Maybelle Timm, at Kelsey, on charges related to his alleged failure to pay labor claims, and was fined \$100.

In reporting the conviction, officials noted that Fern paid the fine and further, paid labor claims aggregating \$1,200.

M. E. Raber paid his regular Friday business visit to the community, coming up from Sacramento.

HOUSE DEBATE ON WAR AID DUE MONDAY

Sec. Knox Says Nazis May Attempt British Invasion "At Any Moment"

WASHINGTON. (UP)—The house rules committee unanimously gave "right-of-way" to the administration's all-out British aid bill as Secretary of Navy Frank Knox warned a senate committee that a German invasion of the British Isles may come at any moment.

The rules committee action provided for three days of general house debate on the measure, and left it open to amendment. Democratic leaders plan to call the bill up on Monday. They expect its passage by the end of next week.

Objections to the measure before the rules committee came chiefly from Rep. Hamilton Fish R. N. Y., and Leo E. Allen, R. Ill., who complained that the bill, as approved yesterday by a 17 to 8 vote of the foreign affairs committee, actually placed no time limit on the measure.

They said that while the President's powers under the act would expire on June 30, 1943, according to the present version, he could before that time enter into agreements to provide arms for Britain and other nations for years to come.

"I think," said Fish, "that the foreign affairs committee made a very serious mistake not to write in that kind of a limitation"—to prevent extension of aid after June 30, 1943. He added he was sure "the house will write it in."

Knox, whose testimony was highlighted by his statement of an imminent invasion of Britain, said that in any case a "very grave crisis" can be expected within "60 or 90 days."

Present indications are that the invasion will be accomplished by the "use of (poison) gas on a large scale," Knox said.

In opening his testimony, Knox said that Col. Charles A. Lindbergh's proposal for a negotiated British-German peace at the present time is a "wild fancy."

Youngs Man Held In Auto Case

James D. Gish Returned Thursday From Bay City To Face County Charges

James D. Gish, 34, of Youngs, was returned Thursday from San Francisco by Captain E. A. Brewster of the state highway patrol and is held at the county jail under charges of taking a car without the owner's permission.

It was indicated Friday morning that a preliminary hearing might be held late in the afternoon.

Gish was arrested on the complaint of Merwin Leventon, of Grizzly Flat, in connection with the alleged taking of Leventon's car from a dance at Pleasant Valley last Saturday night.

Traffic Captain Brewster, who reported the car had been found abandoned in Stockton, said that Gish had admitted to him that he had taken the car.

Sheriff George M. Smith said Friday he had not yet had opportunity during the forenoon to talk with Gish, which he said he intended to do.

CAPTAIN WEBER GRANTED YEAR'S LEAVE FROM FOREST DUTIES

Captain Arnold N. Weber, newly appointed commanding officer for Company D, 115th Engineers, California National Guard, has been granted one year's leave from his Forest Service work to cover the period of one year of active military training on which the company will embark this Spring.

Captain Weber, with First Lieut. Fred H. Schumacher and Second Lieut. Jack Swift Berry, have an appointment Saturday at the Adjutant General's office in Sacramento, for the completion of details incident to their commissions, and the advancement of matters relative to the establishment and complete outfitting of the new National Guard company.

Blessing for a Warrior

NAZI WAR STRENGTH IMMOBILIZED AS ITALY LOSES IN AFRICA

Despite Bold Declarations, Hitler Is No Better Prepared For Successful Offensive Against England Than He Was Last Summer

By J. W. T. MASON
United Press War Expert

On the eighth anniversary of Adolf Hitler's seizure of power in Germany, the Fuehrer is facing his first experience of actual confinement and threatened defeat. He has at his command the greatest military machine in the history of the world, with perhaps 5,000,000 men under arms; but they are locked and immobilized within the continent of Europe.

All avenues of offensive land operations are closed to the Fuehrer's ambitions for world supremacy. At sea, the British fleet is in control, despite depredations by German submarines which are gradually being overcome. In the air, Hitler's numerical superiority of planes has failed to give him any decisive advantage.

Today, Hitler's vocal utterances can have no optimistic effect upon those Germans who analyze the war situation realistically.

Italy is engaged in a hopeless battle in north Africa, while German troops cannot cross the Mediterranean to give help. Not even have German planes arrived in Libya to challenge the British advance. The Fuehrer can find no satisfactory explanation to offer the German people for this immobilization of Nazi strength while Mussolini's empire is crumbling.

There have been many assurances that the Fuehrer had control of southeastern Europe. But, the eighth anniversary of his dictatorship sees the Balkan situation so uncertain that Hitler has no desire to test its explosive possibilities by going to Italy's aid against Greece. Russia continues to check Germany's desire for a free hand in Bulgaria and Yugoslavia.

German plans for marching

through Turkey to attack Suez from the east have been upset and no such movement is now in sight. At the other end of Europe, General Franco continues to refuse consent to use of Spanish soil for a German advance on Gibraltar.

Even defeated France cannot be controlled as the Nazis desire. Berlin reports today say Germany is dissatisfied with the attitude of the Vichy government, which holds fast to both the French fleet and the French empire in Africa. Marshal Petain makes hollow concessions to the Fuehrer but he gives nothing substantial, apparently having visions of Germany's defeat.

New devastating attacks on Great Britain are now promised by Hitler which he says will win the war. But Germany is in no better position now for such an offensive than she was last summer.

Indeed, the advantage lies with the British as compared with last year's attack, when the Fuehrer had planned to enter London during August. Six months ago, British defenses were much weaker than they are today, and British planes were fewer.

Germany doubtless has more planes now than in August and September, but the actual number of planes that can be used strategically in air operations is limited. It is improbable that the Germans can employ many more in given operations over Great Britain now or next spring than during the last attack without suffering heavier losses than before. Without air domination, an invasion of Britain is impossible.

It is difficult, therefore, to see how Hitler can feel any sureness of the future.

POWER FIRM AWARDS LAST CONTRACTS IN MAJOR BUILDING PROGRAM

SAN FRANCISCO.—Contracts have been awarded by the Pacific Gas and Electric Company for generators for two huge hydro-electric plants to be constructed immediately on the north fork of the Feather River, according to announcement yesterday by P. M. Downing, vice president and general manager.

These plants, costing \$22,000,000, with an additional investment of \$7,000,000 in transmission lines, will be located in Butte county, approximately thirty miles from Oroville, at points on the river known as Pulga and Cresta. The Cresta plant will have a capacity of 93,000 horsepower and the Pulga plant a capacity of 110,000. They will be among the largest plants on the Pacific Gas and Electric Company's system. Field work is already under way and construction will extend over a three-year period. Several thousand men will be employed when the work is at its peak.

These plants were described by Mr. Downing as the last major step in a \$50,000,000 construction program started two years ago to meet the power requirements for Northern and Central California until the spring of 1945.

Adam Marchini Suffers Burns

Adam Marchini, lineman for the Pacific Gas & Electric Company, is under treatment at Placerville Sanatorium for burns suffered early Friday afternoon from the arc created by a short-circuit in a 2,300 volt power line.

The mishap occurred as Marchini was working with other members of the line crew on the installation of new high voltage lines in the business district. Marchini was up a pole on the south side of Main Street almost directly opposite the Forest Headquarters.

The flash of the arc created a noise and caused a flash of lights in business houses served by the power lines involved, which brought business people in the neighborhood to the sidewalks in front of their stores.

Marchini climbed down the pole and was taken to the hospital in the city police car. The hospital reported he was burned by the flash (and was not shocked by electricity) on his face and about his eyes. It was said Mr. Marchini's condition is good and he was not seriously hurt. He will remain at the hospital for a day or so.

"BIG BERTHAS" DROP SHELLS IN ENGLAND

Nazis Have Been Shooting 12 Miles Inland From Coast For Four Days

By HARRISON SALISBURY
United Press Staff Correspondent

German super-cannon have been dropping shells a dozen miles inland from the Dover coast for four days, it was revealed today.

The bombardment was disclosed amid increasing indications of Nazi preparations for an all-out sea, air and land offensive against Britain this spring.

Heretofore, the long-range German batteries on the French coast from Calais to Cape Gris Nez have shelled only channel shipping, the immediate coast line and the town of Dover.

Now, the Nazis apparently have mounted new batteries of greater range, capable of bombarding points 10 and 12 miles inland from the coast—32 miles from the battery sites.

The importance of this development is that the Germans may now be able to lay down a "box" barrage, cutting off a strip of coastline possibly 10 or 12 miles wide, to facilitate any landing attempt.

The bombardment lent added significance to Adolf Hitler's speech at Berlin yesterday in which he promised the British "blue wonders"—military surprises—in connection with the great spring offensive which he said Germany is preparing to undertake.

Wendell L. Willkie was on an inspection trip in the Dover area today and may get a first hand picture of the new German bombardment tactics.

German planes, taking cover in protective cloud formations, made nuisance forays over London today, (Continued on Page 2)

Willkie Status Is Discussed

His Leadership Of G. O. P. Rejected In Editorial By Chicago Tribune

OMAHA, Neb., (UP)—Wendell L. Willkie's status in the Republican party and his endorsement of the administration defense aims today were scheduled for "thorough" discussion at a weekend conference of G. O. P. leaders.

Bert Carpenter, Nebraska national committee member who will be host to G. O. P. leaders from 24 states, said "some of the boys are down right mad at Willkie's recent actions" and that the matter would be brought before the meeting.

Tribune Comments

CHICAGO. (UP)—The Chicago Tribune, whichbune, which supported the presidential candidacy of Wendell L. Willkie, today editorially rejected his leadership as a "hoax" and said Willkie's opponents "can grin broadly as the Germans in Norway when Mr. Quisling was presented."

(Vidkun Quisling is the Nazi-sponsored premier of Norway).

The editorial termed the cabinet appointments of Secretary of War Henry L. Stimson and Secretary of Navy Frank Knox, Republicans, as "a pair of old gentlemen" who had yielded "to the overstrain of ambition..." and classing them with Willkie said "their party would just forget them."

Tours Coast
LONDON. (UP)—Wendell L. Willkie was shown secret weapons and defenses of Great Britain's invasion coast today in an extensive tour of the Dover coastline defenses.

High army officers conducted Willkie through the defenses and showed him the result of months of work to strengthen the British coast since the fall of France last year. All newspaper correspondents, even war correspondents with war zone passes, were left behind. Willkie was devoting the entire day to the trip.

Jack Lindsey, 17, has been committed to the Preston School of Industry at Ione, following a delinquency hearing in juvenile court. He was delivered to the school on Thursday.

BEHIND The scenes in BUSINESS

BY
JOHN CRADDOCK

BUSINESS—There seems to be no let-up, or even prospect of one, in the steady expansion of industrial activity. Biggest step-ups, naturally, are in defense goods industries, but the fact that these call upon a wide range of industries furnishing the raw materials, has considerable effect in spreading out the work of producing and moving goods. Backlogs of unfilled orders in aircraft ship-building and the machine-tool industries, as well as in steel and textiles are increasing—which means there won't be any slackening of the pace for a long time to come. Private building contracts are at the highest level in weeks, reflecting the large volume of industrial construction as the feverish drive for additional plant capacity goes on. Housing projects are booming, too.

STIMULATION—More work, larger payrolls, juicy overtime paychecks means gains in consumer buying power. The month of January figures to at least match the performance of December in reflecting this situation, by producing the highest national total of department store sales, for that month, in 10 years. Auto owners, fearing eventual curtailment of production of new models, are rushing to get their '41 jobs tucked safely in the gar-

age. Auto deliveries are running nearly 20 per cent above the near-record pace of a year ago, and well beyond the previous high-water mark, set in the same weeks of 1937. And the manufacturers, feeling the same way, are turning out cars at just about the fastest rate ever.

During the middle two weeks of January the output reached an all-time high for any January period, and the outlook is for continued manufacturing volume at just about the present speed.

NEW FARM MARKET—The war has been costly for American farmers. Wheat shipments, for example, dropped from 61,165,000 bushels in the 10 months ending November 1, 1939, to 13,500,000 bushels in the same period last year. At the same time however, farmers specializing in native "old world" crops like lemons, figs and lemons are enjoying expanded markets. Whereas 176,000 boxes of lemons were imported in 1932, practically none are now purchased abroad, and domestic production rose from 7,600,000 boxes in 1931 to more than 12,000,000 boxes last year. Grape growers, who benefited from a 60 per cent increase in American wine consumption between 1935 and 1939, look for an even more promising future with the entry into the field of firms with nationwide distribution facilities. For example, Schenley Distillers, formerly large importers of European wines, have just purchased the famous Cresta Blanca winery at Livermore, Calif. According to Harry Caddow, secretary-manager of the Wine Institute, this trend will be of "immediate and lasting benefit to grape growers," and will make the public even more conscious and appreciative of the fine quality of our American wines.

MORE ON A-B-C's—Housewives

MINUTES OF THE BOARD OF SUPERVISORS

Friday, January 24th, 1941

The Board of Supervisors having taken an adjournment until this time and there are present Messrs. Gust, Heusner, Niegel and Breedlove and Arthur J. Koletzke, Clerk of the Board. Absent P. J. Hall, Chairman Heusner, presiding.

This being the time heretofore

the country over heard good news this week. They learned that the A-B-C system of grade labeling of canned fruits and vegetables is going to be more broadly applied than ever. Hereafter they'll be able to buy canned foods with labels fully and clearly telling them what they are getting in the way of quality, quantity and so on. The step was announced by the Great Atlantic and Pacific Tea Company, pioneers in the field. Working with the National Consumer-Retailer Council and using standards established by the Agricultural Marketing Service of the Department of Agriculture, the A & P is extending the system to Grade C, which, the council is pointing out, brings within reach of the most family budget virtually all the nutritive food values necessary to health. The company at the same time worked out with the council a new type label, long sought by consumers—an informative label—designed to tell buyers what they are getting in the way of quality and quantity. The council includes such groups as the General Federation of Women's Clubs, the American Association of University Women, and the American Home Economics Association.

THINGS TO WATCH FOR—The Chocolate Chewing Gum—for years the chewing gum manufacturers have been trying to capture this popular flavor in a chewing gum confection—now a new process is reported that does just that. A new incinerator for home use which does not require fuel, but after lighting with waste paper has a down draft that dries other refuse and burns either wet or dry waste. A coin-holder for motorists to simplify paying of tolls and making purchases at roadside stands—it's attached by a suction cup to windshield or dashboard, and holds half dollars, quarters, dimes, nickels and pennies. Rugs made entirely of rayon which are said to be fire and moth resistant as well as durable and lustrous. A new baking ingredient which is said to give white bread the nutritional value of whole wheat—there's something for diet fans to look into.

BITS O'BUSINESS—In sizzling summer weather some foundries or steel mills give workers salt tablets to keep up salinity lost through perspiration—cold weather counterpart of this idea is being employed by a Minneapolis machine company which plies workers daily with cold-resistant vitamin pills. President Roosevelt reports to congress that the government has now spent 13 billion dollars, 466 million of the 13 billion, 987 million emergency relief funds authorized by congress since April 8, 1935.

appointed by the Board for consideration and action upon the petitions of residents of heads of families of children of school age within Pollock Pines, Camino and Sly Park School Districts and after a discussion, between the school trustees of Pollock Pines, and Sly Park, the Supt. of Schools and Supervisors. It is on motion duly made and seconded and now ordered that the matter with reference to Sly Park and Pollock Pines School Districts be continued until March 4, 1941, in order that the entire matter may then further be discussed in the presence of Supervisor Hall, who is ill at this time, and the same matter with reference between Camino and Pollock Pines School Districts on motion duly made and seconded that the petition be allowed as presented to take effect one year from this date.

On motion duly made and seconded, it is ordered that the County Engineer draw the necessary map for the State Board of Equalization, per their request, covering the lapse of the Natoma Joint School District which has since been made a part of Negro Hill School District.

On motion duly made and carried it is ordered that the Auditor draw his warrant on the County Treasurer in favor of the State Treasurer, in the sum of \$5.00, being the state's portion of a fine collected on October 4, 1940, for a violation of the State Fish and Game Code.

The plans and specifications heretofore prepared by Frank W. McCarton, for a re-inforced concrete bridge on Four Corners Road, near Murphy's in Road District No. 4 are hereby approved and adopted, and Hector Williamson, contractor is hereby authorized to construct same in accordance with the plans and specifications for a sum less than \$400.00.

The plans and specifications heretofore prepared by Frank W. McCarton, Deputy County Engineer for the erection and construction of a wooden bridge across Cedar Creek, Road District No. 2, are hereby approved and adopted.

The plans and specifications heretofore prepared by Don M. Hoffman, County Engineer for the erection and construction of a re-inforced concrete bridge across Granite Creek, Road District Four, in El Dorado County, California, having heretofore been approved and adopted by the Board, it was on motion duly made, seconded and carried, ordered that the erection and construction of the said bridge, all in accordance with the plans and specifications, shall be pursuant to law, in such case made and provided by contract let to the lowest responsible bidder, after publication in a newspaper of general circulation in the said County of El Dorado, for period of at least once a week for two weeks, as is required by law, and that sealed bids shall be received up to and not later than the hour of 2 o'clock p. m. on Tuesday, February 18th, 1941, at the office of the County Clerk of El Dorado County, in the Court House, in the City of Placerville, County of El Dorado, State of California for the clearing of the ground for the construction thereof, and for the furnishing of all labor and materials and mechanical workmanship for the building and the construction of the said structure, in accordance with the plans and specifications so heretofore made, and by the Board adopted; that all bids must be submitted on blank forms furnished by the Clerk of said Board, and must be accompanied by a certified check on some solvent bank in a sum to ten per cent (10%) of the amount bid conditioned that if the contract is awarded, the party whose bid is accepted will enter into contract and furnish such bonds as may be required within ten days after notice of award, and failing so to do, the amount of such check to be forfeited as liquidated damages for such failure. All checks shall be made payable to the Clerk of said Board, and the Board reserves the right to reject any or all bids, and to waive any informality in bids received. A deposit of ten dollars (\$10.00) will be required for each set of plans and specifications; and the same will be returned to the bidder upon return in good condition.

It is further ordered that a notice to contractors shall be given and published in the following form, to-wit:

NOTICE TO CONTRACTORS

Pursuant to an order of the Board of Supervisors of El Dorado County, Calif., made and entered into in accordance with law in such cases made and provided, notice is hereby given that sealed bids will be received by the undersigned up to and not later than Tuesday, February 18th, 1941, at the office of the County Clerk in the Court House, in the City of Placerville, California, for the erection and construction of a re-inforced concrete bridge across Granite Creek, in Road District Four, to include the preparation of the site, and furnishing of all labor and materials, all in accordance with the plans and specifications heretofore prepared and adopted by the Board of Supervisors of El Dorado County, State of California. In compliance with the Statutes of the State of California, 1931, the Board has established a rate per diem to be paid in the locality in which the work is to be done, and said prevailing rate is set forth in the following schedule:

Per day of 8 hrs.	
Common Laborers	\$3.50
Machine Operators	5.00
Bridge Laborers	5.00
Carpenters	4.00
Carpenters' Helpers	3.00

All bids must be submitted on blank forms furnished by the Clerk of the Board of Supervisors, and must be accompanied with a certified check on some solvent bank in the amount of ten (10%) per cent of the amount bid, conditioned that if the contract is awarded, the party submitting the accepted bid will enter into contract and furnish such bonds as may be required within ten (10) days after notice of award, and failing to do so, the amount of such check will be forfeited as liquidated damages for such failure. All checks shall be made payable to the Clerk of said Board, and the Board reserves the right to reject any or all bids, and to waive any informality in bids received. A deposit of ten dollars (\$10.00) will be required for each set of plans and specifications; and the same will be returned to the bidder upon return in good condition.

The work to be done will consist in general, of the construction of a reinforced concrete bridge as per plans and specifications.

By orders of the Board of Supervisors of the County of El Dorado, State of California, Dated January 24th, 1941.

ARTHUR J. KOLETZKE,
Clerk of the Board of Supervisors, El Dorado County, Calif.

No further business appearing the Honorable Board took an adjournment until Monday February 3rd, 1941, at 10 o'clock a. m.

ARTHUR J. KOLETZKE,

Envoy to U. S.

Foreign Secretary Viscount Halifax is Britain's new ambassador to the United States, succeeding the late Lord Lothian. The appointment was seen as an indication that Britain considers the Washington post of equal importance with a cabinet portfolio.

EMPLOYMENT AND PAYROLLS IN DECEMBER REACHED RECORD PEAKS

SACRAMENTO (UP)—Employment and payrolls reached all time highs during December, with a 2 1/2 per cent increase in number of employees and a 7 per cent boost of weekly payrolls, the department of industrial relations reported today.

The figures were based on returns from 1,916 California factories.

Shipbuilding plants hired 25 per cent more workers during December than in November and increased payrolls by 58 per cent. Structural metal work plants increased employment by 20 per cent and payrolls by 36 per cent. The aircraft industry reported a gain of 11.3 per cent in wage earners and 4.7 per cent in payrolls between November and December. Slaughtering and meat packing plants also reported employment increases.

Declines were noted in the following industries: Lumber, stoves, confectionery, beet sugar, and fruit and vegetable canning.

DEMPSEY DISCIPLE TO TACKLE LOUIS TONIGHT

NEW YORK, (UP)—The most determined of all efforts to wrest the world heavyweight championship from Joe Louis will be made to-night when Red Burman, Jack Dempsey's disciple, squares off against the Detroit Negro at Madison Square Garden.

This red-haired Baltimore Irishman is the most carefully conditioned challenger ever to face the Brown Bomber. Moreover, he represents a faction of the fight game that is bitterly opposed to the joint regime of Louis and Promoter Mike Jacobs.

Burman and his friends are out to cop the crown. Regardless of the challenger's apparent chances, this certainly is no mere fight-a-month performance for Louis, attempting his 13th title defense.

Burman, 25 years old, and best body puncher in the heavyweight division, has been grooming for at least three months. Right at the peak of prowess and in perfect condition, Red's sharpness is matched by his courage. Here is one challenger who will enter the ring without fear, ready to shoot the works in a desperate attempt to win the biggest gamble of his career.

SHARP RISE IN LIQUOR PRICE BLAMED FOR LAW VIOLATIONS

SACRAMENTO (UP)—Due to the sharp rise in prices of the better liquors, some establishments have taken to refilling bottles bearing the names of well known brands with inferior grade, the state department of public health reported today.

Very often, the department said, domestic liquors of the same group are substituted for the more expensive imported liquors.

During the month, one large establishment, the department found, had a number of bottles bearing well known labels of imported Scotch whiskey, which were refilled with a domestic type of Scotch. Violations of this type during December, totaled 34, all of whom had offered for sale distilled spirits that had been adulterated or refilled with substitutes.

Brentwood, Contra Costa county, claims to be the largest shipping point in the country for tomatoes. The dairy staff at the University

THE Book Mark

By JANE VOILES

If you are interested in definitions of Americanism turn to a book that was published last fall and that has been steadily growing in popular favor, Louis Adamic's "From Many Lands." Primarily it is a study of the immigrant adjusting himself to a new order of living but at the same time, it is an inquiry into democratic principles not so much from the economic and political point of view as from the social.

Mr. Adamic, an immigrant himself came to the United States from the province of Carniola in Jugoslavia when he was a boy in his teens. Today he belongs to the top ranking writers of this country. According to Mr. Adamic "democracy" isn't just a high sounding word to be introduced into speech and writing when we want to be impressive, it is a belief which should be practised consistently and intelligently in our daily life. This belief is the basis of "From Many Lands" which, incidentally, is the first book of a series planned to cover all phases of immigrant life in America as well as explore the meaning of American culture.

"From Many Lands" consists for the most part, of case histories of individual immigrants or immigrant families. Mr. Adamic presents these cases with the story teller's art combining the romance-like narration of Joseph Conrad, the peculiar psychological insight of Katherine Mansfield and the eye for significant detail that we associate with Sinclair Lewis. Although at heart Adamic is an idealist he expresses himself by means of concrete terms and deals with specific rather than general problems.

The book begun in 1938 deals with actual people whose names have in some instances been changed. His examples, to be sure, are not run of the mill but top bracket people who lack the advantages of formal education but know how to work with their hands and their brains.

Among his best examples of immigrant adjustment are the cases of several European women who belonged to the peasantry or to the lower middle class. Take the case of the Polish girl Anna Meleski. While good looks which seem to be the chief requirement of the American woman were not her strong point, her instincts were sound, her courage was remarkable and so was her capacity for work. She had slain a wolf single-handed in Pomerania before coming to America. Her husband, Stefan Meleski worked in the coal mines of Pittsburgh. As a family the Meleskis were prospering when suddenly they met with reverses. Stefan had pneumonia, then there was a strike at the plant. Anna had to have her appendix removed, one of the children had scarlet fever. The last straw was the accident at the mine that killed Stefan's brother. After that there was such a change in Stefan that he almost became a mental case. His one thought was to get away from America and back to Poland, but Anna saw how this move would mean tragedy for her children.

Having heard of a Polish farm settlement in Florida she investigated its possibilities and persuaded Stefan to give it a trial. Thanks to her courage and her hard work the venture was a success. The family kept off relief. The oldest son went to college and became a professor of sociology, the oldest daughter became a nurse and married a doctor of long southern ancestry. Anna today "is a deeply contented woman." In the same way the sons and daughters of the Croatian and the Bohemian families whose histories are told, hold creditable jobs in their communities.

On the west coast Mr. Adamic studies the problems of the Mexicans and Japanese. Perhaps the most challenging case in the book and the one likely to arouse the most controversy is the case of the Japanese boy which Mr. Adamic calls the story of the American with the Japanese face.

Immigrants looking back today on their countries say that America is the hope of the world but that does not entirely solve their problem nor the problem of the United States in absorbing them. There used to be aimless, sentimental talk about the melting pot but, says Mr. Adamic, there is danger here and there that the stuff in the melting pot may melt the pot itself.

Read "From Many Lands." It is a good book to "get your teeth into." Aside from the consideration of new and old stock American you will find yourself asking such questions as "Can America afford to let character decline?" or "what is happening to the spirit of individual family independence and self reliance?"

Farm will aid cheese makers of the state to standardize their product. Davis.

Yank Aids RAF

Only American who took part in the aerial bombardment which preceded British capture of Bardia, important Italian base in Libya, was Sergeant H. Thomson Brundidge, 23, of St. Louis, Mo., an RAF gunner. Brundidge holds a civilian pilot's license and has been recommended for a commission in the Royal Air Force.

HUDSON STARTS NATIONAL PRE-SPRING SALES CAMPAIGN

Returning from a meeting with George H. Pratt, general sales manager of the Hudson Motor Car Co., held in San Francisco J. E. Summerfield, Jr., Hudson dealer for this territory, declared that Hudson will immediately launch one of the most aggressive pre-spring merchandising drives the company has yet undertaken for what is believed will be the most active early spring market the automobile industry has yet known. The meeting was one of 51 similar gatherings now being held throughout the country, Summerfield said.

Commenting upon the aims of the program Mr. Pratt said: "It should not be forgotten that the automobile itself is an important factor in speeding up the nation's productive forces. The world is on wheels today and motor cars have their own task to do in defense activities by enabling men to reach their jobs easily and return home to their families again for rest and recreation. Then, too, it is only through a healthy volume of normal business that our defense program can be made possible and paid for and normal business today is geared to automobile transportation. With this in mind we are preparing, by this merchandising program, to place our selling organization in a position to meet what we believe will be an earlier-than-usual demand."

Mr. Summerfield disclosed that Hudson's domestic retail sales for the calendar year just ended amounted to 80,700 cars, representing an increase of 22 per cent over 1939.

WEALTH OF PRODUCTION KNOWLEDGE GAINED FOR U. S. DEFENSE

Making a point of "how Americans cash in on automotive progress," Lloyd Cannon of Cannon's Chevrolet Company, yesterday revealed a number of thought-provoking facts in a talk to his sales organization.

"At this time of our national emergency, we are learning with deep satisfaction of the value of constant improvement in the automotive industry," the Chevrolet man said. "Because of the example set by such outstanding car manufacturers as Chevrolet, a wealth of production knowledge has been built up and nationally we are far ahead of any nation in the world. It might be described in this way—right now we are cashing in on the policies of constant progress which have ruled the automotive industry since cars first became dominant in our lives."

"There are in round numbers 40 million vehicles in operation in the world," the Chevrolet man stated. "Thirty million of these are in use in our country. It is readily seen that should any national emergency call for the mustering of 'all-out' defense manpower, almost every citizen could do his bit in the matter of driving vehicles in defense interests."

"Add to that reservoir of trained people, we have the advantage of good roads. Good roads have come as a natural subsidiary to the growth of the automotive industry. To be sure, we need more arterial roads and more roads giving direct access to regions now reached by roundabout methods. But on the whole, our road system is far advanced and has placed us in a splendid position to pursue the campaign for defense should the need ever arise."

SUSPECT HELD FOR TRIAL OF 14-YEAR-OLD MURDER

INDIANA, Pa. (UP)—A Los Angeles liquor store owner who was extradited from California to face charges of murdering two men fatally shot in a quarrel over a broken baseball bat more than 14 years ago, was ordered held for court yesterday after preliminary hearing.

Gaspar Morganti, 40, was accused of shooting Clarence Paye, 28, and Thomas J. Meewan, 23, in a quarrel at a Harttown store August 8, 1926. He probably will be brought to trial in the second week of March.

W. W. Jennings was a Friday caller from near Garden Valley.

Earl Klare was a business visitor from Aukum section on Friday.

Your Income Tax

(Continued from page one)

gether during the entire year may not exceed \$2,000.

If a child under 18 years of age reaches the age of 18 years during the taxable year, the credit of \$400 is required to be prorated in the same manner as the personal exemption. For example, should the child's eighteenth birthday fall on June 30, the parent would be entitled to claim \$200 credit for the dependent child—that is, one half of \$400. The same rule applies to other dependents where a change of status occurs during the taxable year.

State Income Tax Aide Coming Feb. 17, 18

State Income Tax Examiner Charles Dapper will be stationed at the Court House on Monday and Tuesday, February 17th and 18th, 1940, between the hours of 9:00 a. m. and 5:00 p. m. for the purpose of assisting taxpayers in filing state income tax returns.
